Hold 'em Poker for Advanced Players David Sklansky, Mason Malmuth, 1999 Texas Hold 'em is not an easy game to play well. To become an expert you must balance many concepts, some of which occasionally contradict each other. In 1988, the first edition appeared. Many ideas, which were only known to a small, select group of players, were made available to anyone who was striving to become an expert, and the hold 'em explosion had begun. It is now a new century, and the authors have again moved the state of the art forward by adding over 100 pages of new material, including extensive sections on loose games, and short-handed games. Anyone who studies this text, is well disciplined, and gets the proper experience should become a significant winner. Some of the other ideas discussed include play on the first two cards, semibluffing, the free card, inducing bluffs, staying with a draw, playing when a pair flops, playing trash hands, desperation bets, playing in wild games, reading hands, and psychology.

In addition the book also presents: A model of the developing personality and the relationship to attachment theory and emerging theories of neuroscience. A discussion of the linguistic components of NLP and the effectiveness of utilising the language patterns offered by NLP. Barca Jimmy Burns, 2011-12-05 The story of FC Barcelona, written by the author of the internationally acclaimed *Hand of God: The Life of Diego Maradona* and updated with a new preface 'Burns' examination of the club's fates and fortunes always goes well beyond the game itself ... Burns is a brilliant journalist ... Unmissable' Total Football 'Anyone who really wants to know Barcelona should read Burns. A cracker - part sports book, part travelogue' Daily Mirror Barça is més que un club: more than a club. It is a social and political phenomenon, successful on the football field and emblematic of the proud region of Catalonia off it. Founded in 1898, FC Barcelona is today the world's biggest football club. To unravel the background to the Barça phenomenon, Jimmy Burns has travelled with supporters, talked to people intimately linked to the club, unearthed police files and long-forgotten newspaper reports. Barça: A People's Passion is much more than a book about football - it is a story of more than a hundred years of obsessive national pride and has now been brought right up to date.

The Homework Trap Kenneth Goldberg Ph. D.,Ken Goldberg,2012 The Homework Trap is a concept developed by Dr. Kenneth Goldberg to explain why certain children, regardless of how bright they are, are unable to complete their homework assignments. These children are typically misperceived to have emotional or behavioral problems when, in fact, they have under the radar learning problems which are preventing them from getting their assignments done. These learning problems are not severe enough to require special education, nor are they mild enough to be ignored. Parents and teachers alike think and say to these children you could do so well, if you just tried harder. The Homework Trap offers a new model for thinking about persistent homework problems. It considers homework noncompliance from the child's point of view. Rather than focusing on what the child should do, or assuming that consequences can change behaviors, it looks to see why, in the face of penalties, the child will do anything but get his assignments done. The Homework Trap applies concepts from behavioral, developmental, and organizational psychology to explain, in simple, easy-to-understand terms, why parent-teacher efforts often make matters worse. Then, it provides practical solutions for rectifying the problem which are simple, yet radical at the same time. The methods are simple, because they require very few steps. They are radical, because they call for a conceptual change from parents and teachers alike. The Homework Trap enables parents of homework-trapped children to not feel ashamed. Typically, parents of homework-trapped children experience great pressure to make their children comply. Recommendations flow from the school to the parents with the covert message that the parents are not adequately managing their homes. While usually good advice, those recommendations may not fit in with the norms of those parents' home. The Homework Trap allows the parents to take charge of the situation on their or their child's behalf. The Homework Trap also gives parents a tangible tool, the book itself, to bring to the school and advocate for their child. The book is short, straightforward, and very much to the point. The concepts found in The Homework Trap are unique. They are written by a psychologist, not an educator, and one whose work is not limited to children alone. In that sense, The Homework Trap understands that problems with homework noncompliance accumulate over the years, with long term implications for adult life. The book moves our thinking from how to get this or that assignment done, to considering the best interests of that child, in a lifelong process.

The Birdwoman's Palate Laksmi Pamuntjak,2018-07 In this exhilarating culinary novel, a woman's road trip through Indonesia becomes a discovery of friendship, self, and other rare delicacies. Aruna is an epidemiologist dedicated to food and avian politics. One is heaven, the other earth. The two passions blend in unexpected ways when Aruna is asked to research a handful of isolated bird flu cases reported across Indonesia. While it's put a crimp in her aunt's West Java farm, and made her own confit de canard highly questionable, the investigation does provide an irresistible opportunity. It's the perfect excuse to get away from corrupt and corrosive Jakarta and explore the spices of the far-flung regions of the islands with her three friends: a celebrity chef, a globe-trotting foodist, and her coworker Farish. From Medan to Surabaya, Palembang to Pontianak, Aruna and her friends have their fill of local cuisine. With every delicious dish, she discovers there's so much more to food, politics, and friendship. Now, this liberating new perspective on her country--and on her life--will push her to pursue the things she's only dreamed of doing.

Taming the Paper Tiger at Work Barbara Hemphill, 1998 Most people have an area they'd like to get more organized. At work, it could be a desk buried in phone messages, memos and work-in-process, overstuffed file cabinets or indecipherable computer files. At home, maybe it's a dining room table laden with bills and receipts, a pile of articles waiting to be read or photographs that need labeling. No matter what the situation, Barbara Hemphill has the practical solution to help control these Paper Tigers. For twenty years, Hemphill, America's leading professional organizer, has shown people how to create sensible, workable paper-management systems. In these two books, she presents her F-A-T system (File, Act, Toss), which helps readers determine what needs keeping. Then she shows how to develop easy-access filing systems for those items. And because the paperless office never arrived, Hemphill also thoroughly covers organization for the computer and details how best to use it and paper systems together. Her practical tips turn even the most cluttered spaces into places where To-Do lists actually get done!
